Subdivision of the Samuel Parker Homestead

On King and Young Streets, near Piikoi

This beautiful property is placed at the disposal of home buyers on good terms if desired.

These Lots Have Been On the Market for Comparatively Few Days, and Sales Indicate that Careful Buyers Appreciate the Exceptional Opportunity to Secure Valuable Property.

Size of Lots from 5000 to 7000 square feet

Intending Purchasers are invited to inspect the property and make application to

CHAS. S. DESKY,
Fort Street, near Merchant

PLAN A HOME FOR YOUNGSTERS

At a meeting of the Humane Society held last Wednesday morning, it was proposed to erect a \$50,000 home for children, the proposal being presented by Mrs. Sanford B. Dole. The idea is to frame a bill for introduction in the legislature, in which the government will be asked to appropriate the sum necessary for the construction of such a building. Such a building will fulfill a long-felt want in the way of a suitable institution for orphans or children who have parents who are unfit to bring them up in a proper manner.

At present, all other institutions throughout the city for this purpose, it was reported, are filled to their capacity. The Salvation Home and the Kaili Orphanage cannot accommodate any more children, and the Castle Home, at Waikiki, provides only for children of certain nationalities, and it is the opinion of the members of the society that a new home should be erected by the government. Special humane officer, Miss Rose Davison, in the reading of her report, stated that a number of cases of cruelty to animals had been attended to during the past month, and also the cases of seven children. She also stated that she visited the districts of Waiakua and Waiakua and found conditions satisfactory in both places.

A special report of the agent of the society in regard to the dance-hall ordinance, who has made various observations during the past month, may be the result of these observations. It is thought that the ordinance is not as yet well under way and some changes in the ordinance may be recommended.

PORT IN SIGHT THREE WEEKS

Tacoma, Nov. 23.—Six times the British bark Eudora, Captain Thomas Atkinson, which has arrived in Tacoma from Honolulu, approached Cape Flattery before she finally effected an entrance to Puget Sound. Each time she would be met by heavy southeastern gales and forced back to sea, until captain and crew were weary and disgusted.

"We made a fine run of eighteen days from Honolulu to within sight of the cape," said Captain Atkinson, "and we were well inside the light-ship when the southeast gale struck us with the suddenness of a shot. We were forced to put back to sea, and every time we came back the same thing would occur, until I got sick and tired of turning the ship about. It was twenty-four days after we sighted Cape Flattery before we finally got in. Off the coast we would come into a west wind, then, when the ship had turned about and was again approaching Flattery, along would come the southeast gale and back we would go."

"I have never seen such terrific seas. We were fully thirty feet above the water, but the seas were so high that they came over us from one side and then another. After five attempts I held the ship off the coast until I felt sure that we could get in; then when we entered we got all most as far as Port Angeles, beating in the strait, before we were picked up by a tug. Talk about Cape Horn, the weather we got off Flattery was as bad as anything that will happen off the Horn. I am sure that shipping has not yet heard the last of this gale."

In spite of her experience with the storms, Captain Atkinson brought the Eudora through without the loss of a stitch of canvas, nor was the vessel damaged in any way from the seas. The Eudora is under charter to the Portland Mills Company and will load at the Puget Sound mills. She will load about 3,000 tons of wheat for the United Kingdom.

The schooners Alice Cooke, from Honolulu, and H. D. Bendixsen, from Kaili, entered the strait in company with the Eudora.

TWO HAWAII JUDGES MAY BE REAPPOINTED

The names of Judge Charles F. Parsons, of the fourth circuit and John A. Mathewman of the third circuit have been sent to President Taft by Governor Frear, recommended for reappointment, and if the senate confirms the president's appointment this will reduce the number of appointees which President-elect Wilson will be able to make in this territory. The terms of both judges expire next month, and if reappointed they will serve for four years more.

While the senate may refuse to confirm some of Taft's appointments, it is considered unlikely in the case of these judges, as they are both of the highest caliber and beyond the pale of political patronage.

TWO LAND SALES PUT ON RECORD

Two sales of town property were placed on record in the registrar's office today. One is by the Bank of Hawaii to Hans Charles Engdall, for \$4250, consideration of lot 511 on a government town situated on the main side of Lanikila street and containing 12,200 square feet.

The other sale is by Judge Sanford B. Dole to William Barker Lanyon, for the consideration of \$2200, of a piece of land on the Ewa side of Nani street, with a frontage of 150 feet on Punui street, and containing 20,000 square feet.

PAYMASTER STEVENS IS TO BE RELIEVED JAN. 2

Paymaster Herbert E. Stevens, U. S. N., received notification by this morning's mail that he will be relieved as pay officer at the Honolulu naval station Jan. 2. He will proceed to his home in Boston, to await orders.

Paymaster Stevens has been on duty here for two years and a half, and during that time has made a lot of friends. Mrs. Stevens returned to the states several months ago, and the officer has been expecting his orders for some time.

Paymaster Walter B. Izard is Paymaster Stevens' relief. Besides his official qualifications, Paymaster Izard is a crack tennis player, and will be a distinct addition to the local court experts.

HENS ACQUIRE PLUM JAG.

HONOLULU, Me., November 25.—Mrs. Harry Stevens of Seabrook, a member of the Women's Christian Temperance Union, was terribly shocked the other day to observe that all her hens were staggering around the yard in a disgraceful state of intoxication. Where did they get the liquor?

Mrs. Stevens had preserved a lot of plums, but every jar of them fermented, and she threw them into the waste, and the hens gobbled them. That was the answer.

The most stand and respectable of the biddies were soon bustling around as if on springs, making vain stabs at imaginary worms, while the roosters strutted lustily about and crowed hilariously. One hen died from the jag.

Former senator Theodore Tilton is in the hospital, and the doctor has declared that the senator has been suffering from a severe case of "plum poisoning," and now the doctor says he is "extinct." The Progressive party, and its help, being in.

Hot Water at any Time

There are many purposes which require a small quantity of hot water procured quickly and conveniently—for shaving, for making a couple of cups of tea, coffee or chocolate, or for warming baby's milk bottle.

An Electric Heater

will supply you with boiling water in one minute from the turning of the switch. No bother about it.

Taft announces that he will do all he can to rejuvenate the Republican party, and that he will make many political speeches as a private citizen, but that he will not permit his name to be used in any way as a future presidential possibility.

The Daughters of the American Revolution have demanded an explanation of Mrs. Matthew Scott, president general of the society, in regard to her order to place the Confederate flag on an equal footing with the Stars and Stripes in the decorations for the convention of the Daughters of the Confederacy.

The Denver & Rio Grande and the Colorado Southern railroads have been indicted for granting rebates and issuing free transportation to influence interstate shipments.
